An Evening for Parents/Guardians and Community Members with MARIA TROZZI

Promoting Resilience:

Words, Strategies, and Wisdom to help children and families face life's speed bumps.

Join Maria Trozzi for an interactive evening where she will explore the typical and not-so-typical speed bumps that children encounter en route to growing up. The speed bumps are inevitable: her refreshing and honest approach focuses on strategies that are often counter-intuitive for parents, but help children master the coping skills that promote resilience.

Study Island Accounts 2009 - 2010

Students are being given their login and password for their Study Island accounts.

This year students will have access to both the ELA and Math portions of the program.

We encourage students to work on both programs each night for at least 15 minutes.

Throughout the year, ELA and math teachers will assign specific areas for students to work on during certain chapters. Staff will also review with students specific MCAS areas they should be practicing regularly. Information on how your child performed on each specific MCAS area was provided to parents on the recent MCAS form that was mailed home last week.

Any questions, please contact your child's ELA or math teacher or Ms. Feeney.
